VINEYARD & TERROIR

Neleman wines reflect the aromas and flavours of a precious and perfect terroir. You can find Requena's county inland of Valencia, 70 km far away from the Mediterranean sea. It has an altitude that goes from 700 to 900 meters above sea level. The climate is Mediterranean with continental shots. Influenced by this altitude and distance to the sea it distinguishes it of the other territories in Valencia. Winters are cold and very long, arriving to achieve, occasionally, until 15 °C under zero, in contrast with our short summers with their hot days and dry and fresh nights. Thanks to this climate, geographic situation, rough soils and the knowledge of its people, we produce astonishing white grapes. Keeping their berries with fine and complex aromas that shut the essences of the Valencian village.
